

IMPORTANCE OF SCHOOL - MISSING SCHOOL OR NOT

-By Zainab, CLASS-8th

School plays a very important role in every person's life and in child development. The role of school in Our life promotes interest and empowers them with opportunities to become Successful individuals. The expansion of the new education system is similar to the development of Our Society.

I heard about Coronavirus from my teacher. They told us that they were closing the school, but I didn't know the reason why? I Asked my father, and he told me that there is a disease that affects people which they are afraid might spread in the School.

As a result Education has Changed dramatically with the distinctive rise of e-learning, where-by teaching is undertaken remotely and on Digital Platforms. But It is finding hard to Study without the help of teachers "I Understand the lessons better in School when our teacher explain; I don't understand much when I watch it on laptop. At School the teacher explains until we understand the lessons but on laptop the lessons go very fast and sometime I can't Catch up. And also It can lead to health problems such as lack of sleep, mood swings, indigestion,

neckache and backache.

It's true that we must miss school friends and teachers. Online classes are certainly not a substitute for real classroom teaching because school friends so much laughter while teacher was teaching and we all friends making fun from back, making paper airplane and making jokes etc.

Only in a small group a person can develop properly. At school, students learn how to make friends, be patient, get rid of disappointment and especially to compete. Competition between students can be very stimulating and students will only benefit from it. Online learning cannot offer human interaction.

I miss my school a lot. It has been daily routine of going to school and then waiting for holidays. But now holidays turned boring. I am bored my games. On the top of all, I miss the fun I had with my friends.

Those memories are constantly disturbing me. Now I am feeling like going to school at least to get scolding by I understood the importance of teachers and joy of friends.

THANK YOU ...
