

My India

She gave Gandhi and Tagore to the world
Her yoga has impressed everybody
Her firm belief in non violence
Has become an unofficial decree

My India has been a forebearer of human race
Like a calm and peaceful leader
Had there not been ruthless invasions
My India would be cynosure of all nations

When the world was still monkeying around
We gave zero , Vedas and arthshastra
When the world was still drawing on walls
We gave ajanta, Khajuraho and Geeta's mantra

While the world was busy in wars
Buddha was spreading the path to Peace
while the world was still relying on concoctions
Ayurveda was in bloom and saving everybody

Even after remaining under foreign rule
We have come long way
We produced best scientists,
doctors, engineers and philosophers
Who are leading the nation in every way

Lately with the way we are dealing with a
deadly infectious disease
The World is admiring our efforts
And is acknowledging our scientificity

I am immensely proud of my Nation
It is a beautiful amalgam of past and present
We respect our culture and traditions
And swear to serve her with devotion

Dr AJD
