During COVID-19 pandemic...

CELEBRATIONS OF INDIAN INDEPENDENCE DAY DURING THIS COVID-19 PANDEMIC

"Firm floss, unknown, undefined.
Like a nectar, sweetness wins heart
And sweet is blind...
Connection gloss on, sky seven.
Beyond sight, it sparkles,
In, immortal heaven..."

Away of daily grind, never states to be separated from deep - old bonds. Our connection with our nation, is still alive, when we are not settled on our motherland. The respect and gallant love for the ground, where we execute our first step is always different, away from this hyllic orb! The floss amid us is mesmerizing and mysterious.

Since, the land of ours, has developed from Gondwana land, it's a long run to be martyred for India. There are numerous names of soldiers, that can be observed from an ancient times. There is a very long history of our warriors, not just redeemed their duties but accepted this land as their own

dignity. Our India represents the bold and gallant bond of Patriotism, among it's residents.

India was never obsessed of its monarchical leadership or rule, as the virtues and morals has been following for a very long time. Earlier India was also known as Bird made of gold. As greatness demands sacrifices, our mother India was also expected to deed so, she was subjected to endurance of being captured by foreign invaders. The struggle for independance was majorly began in twelfth century. There are numerous accountance of freedom fighters, whether he is RANA SANGA, MAHARANA PRATAP, MAN SINGH JHALA, MIHEER BHOT, BAPPA RAWAL, CHHATRAPATI, SHIVAJI MAHARAJ, RANI DURGAYATI etc and list goes very long. The sacrifice to save own dignity such as JAUHAR OF RANI PADMAVATI or to save the mother-land, it has been a wide tradition of India and even it can be clearly seen on the borders, today too.

Everyone, lady like RANI LAKSHMIBAI, RANI CHAMANNA, or ladk like BHAGAT SINGH, SUKHDEV has contributed for India's freedom struggle. From royal family to a common man was once indulged in small big fights or rebellion. No one can ever dare to forget these sacrifices and contributions of the these marvellous warriors.

“Every red drop, plasma you shed.
Destiny can't crop, the textured head.
Memories of your's,
Ya! the sacrifices you, made,
You never loose hope
Come to blows, you null left scope

The invaders, you'd drop
And down them, dead..."

During these pandemic times, it is so harsh to shed anything practically along a group. The pandemic has made the scenario, scary and dangerous. No one dares to move out as all are frightened of catching with this COVID-19 disease.

But as comes the sorrow, happiness will come soon and these dark days will fade away.

Any obstacle can't distract our emotions and ambitions. Our Corona warriors are working day and night and the whole country is supporting them.

If humans know to excavate their way, then how we can forget our independence day and our great sacrifices. By following protocols and in a small group, we'd celebrate independence day previous year. School performed virtual online assemblies and country hosted a small function, in which only the major persons were invited. By social media we greeted our Corona warriors - the doctors, delivery men, news reports etc. By sharing positive thoughts and empathy, we praised our soldiers through online medium and letters too. Many residential societies organised small functions, in small groups.

Irrespective of our residence, we gather together, united our hearts and souls and joined hands from long distance and in variety of innovative ways to salute our soldiers who martyred and warriors dealing consequences, today.

To reminisce some one, the various ways come out.
Just the strong bond is required to feel the visionless
existence.

At the end, may the body decrease but the soul
still sings the persona louder than words.

"You, the soldiers martyred on dealing,
are always alive and will be in our hearts
forever."
