Importance of School

by Mohd. Shahar Yar Khan

School play a important role in our life it gives us manners and good friends and teach us big lessons of our life. School is a place where we meet with new friends or teachers. Truly school life is amazing where we don't have any tension just relax and enjoyment with our friends. If our friend beaten by someone we also beat him. In school life our world is change we get up in morning at 6am and think that today we have to bunk this class and play this sports and thanks to God to give one more day to rise and shine our self. but Nowdays there is a lockdown our school are closed. And due to Covid-19 pandemic. Now we are missing our school life and friends. Now all things turn into online, no physical or attraction. Now days, no enjoyment only studies. I pray to god that please do all things normal and give us one more chance to rise and shine our self in school life to enjoy with our friends and enjoy our school life.

Truely school life was amazing.

Thank you.
