

Patriotism

The reason we're safe
The reason we're sound
Is because of some people
at the borders who are found
They stand at the border
All day and night
With bravery in their hearts
And focusing their sight
Even if they miss their family
They do not feel upset
Cause they serve their country
They are standing to protect
This brings them adrenaline
And keeps them standing on their feet
To defeat the intruders and be in discipline
But now has come corona
which has made us homebound
The roads and streets are the places
Where it is found
Thus we must follow precautions
To keep it outside
We need to control it's flow
Until it starts to hide.
Those people who are staying alone
Are not really alone
The whole country is working, to tell corona begone!
If we fight this disease everything will be fine
'Cause we'll fight like patriots
Like soldiers at the border line!
