

School importance- missing school or not

The word 'school' is not just a word . This word is an emotion itself. After completing my class 10th i never get the chance to be in school again due to covid 19. Someone rightly said "sometimes you will never know the value of a moment until it becomes a memory" I just realized how fast these years of school life have gone.

Yes I admit that I miss my school days where I spent 12 golden years of laughter , happiness and friendship where I met the best people of my life , where I learnt countless of life lessons from my teachers where I have met my human diaries I mean my 2,3 best friends. I really miss those days when we laughed at each other's jokes and cried on each other's shoulder and the only scary thing was getting punished by teacher. I really miss those times when I participated in every event in every occasion and everytime I got cheered up by my friends and teachers and there was no place for hate , in losing . I was so good at competing in competitions but now I wonder why I am not capable of overcoming these life obstacles? Why my life is not nice as my school ? Why life is more difficult then my school exam ? someone told me once that "you just don't know it yet but school is one of the best places in this planet to exist peacefully " I didn't knew that life without school would be this painful ,difficult and hard.

In school my only sorrow was "my lost cap of pen" but now I am trying to forget "my lost loved ones." It was a bit difficult to keep walking with that heavy school bag but it is more difficult to keep moving with this heavy heart of mine. I never thought i'll be saying this but I miss my school time the most in this lockdown life. I know everyone is going through a lot during this covid phase .i've seen people crying for their unbearable loses. But all we can do is 'HOPE' and 'PRAY'. Hope for the best , hope to come across this disease soon, hope to live a normal life soon and most importantly hope to go to school again . I don't know if I will have the chance to participate anymore in school competitions as this is my last year . So, if this does end up being my last school article I just want to say that my school life was the best time because it made me what I am today . I know these will all be stories someday and our group photos will be old photographs but right now these moments are not stories. I just pray to god that let me go to school for just one day before I graduate.

"in this era of masks and PPE kits

I mis my school uniform. "
